

# Why work with **OAP**?

Oil-Air Products specializes in providing innovative, cost-effective fluid power solutions and products that meet and exceed the ongoing demands of our customers. Our extensive experience in the fluid power industry and our partnership with the world's premier fluid power manufacturers allow us to provide technical, high-quality solutions that help our customers grow their business through reduced operating costs and increased productivity. Since 1983, Oil-Air Products has been a leader in the Fluid Power Industry. **Let us go to work for you!**

## Fluid Power Manufacturers We Represent

Engine, mobile, and industrial filtration solutions.

High-quality hydraulic and electronic propel and control products for mobile equipment. PVG build center.

A subsidiary of Danfoss. Cartridge valves and HIC solutions, including fan drives and steering systems.

Hydraulic fittings, adapters, and flanges.

Hydraulic light duty, medium-duty, and heavy-duty low-speed high-torque motors, steering units, hydraulic brakes, and pumps.

Hydraulic gear pumps and motors.

Hydraulic directional control valves, gear pumps and motors, and electronic remote control systems.

Quick release couplers and multi-connectors.

Fluid & motion control, mobile and industrial filtration, and sensors.

Transducers, gauges, and instrumentation solutions.

Fluid transfer solutions for hydraulic hosing, couplers, and assembly equipment.

Axial piston hydraulic pumps and motors. Cylinders, HIC, cartridge, and prefill valves.

Pneumatic solutions for air prep, valves, and actuators, Kip, Herion, and Mosier. Pneumatic directional control valves, fittings, manifolds, air nozzles, and custom products.

Mobile and industrial lubrication systems and components.

Full line of filtration, valves, clamps, accumulations, hydraulic accessories, test fittings, and diagnostic equipment.

Complete line of NFPA hydraulic and pneumatic interchangeable cylinders.

High-quality welded and tie-rod hydraulic cylinders with renowned Hallite seals.

Mobile and industrial cooling solutions.

FLUID POWER SPECIALISTS

## Fluid Power Manufacturers We Represent

Complete line of flanges and adapters in carbon and stainless steel.

A subsidiary of Parker. Advanced hydraulic piston and diaphragm accumulators, coolers, and heat transfer equipment.

Range of wireless radio solutions for commercial vehicle winches and other industrial applications.

Air-driven hydraulic pumps, power packs, and intensifiers.

Planetary gearboxes, hydraulic winches, and wheel drives.

Full line of filtration, valves, and clamps.

Worldwide designer, manufacturer, and integrator of precision motion control products and systems. Servovalves, servoactuators, proportional valves and related servo electronics.

Standard and custom swivels.

World-renowned manufacturer of internal gear, external gear, vane, rotary lobe pumps, as well as replacement parts and accessories.

Radio control solutions and products.

Hydraulic control valves, solenoid valves, variable displacement piston pumps, vane pumps, and modular valves.

Hydraulic components for all markets including pumps, motors, cylinders, and valves.

Manufacturing high-quality products such as hydraulic filters and strainers, reservoir accessories, pressure gauges, o-ring seal tube fittings, hydraulic adapters and hose fittings.

Custom hydraulic and pneumatic systems, assemblies, and power units.

A subsidiary of Danfoss. Hydraulic pumps, motors, and fan drive systems for global off-highway mobile applications.

A subsidiary of Parker. High-pressure vane and piston pumps and motors. CETOP/ISO proportional and directional valves. Calzoni/Denison radial piston hydraulic motors.

High-quality pneumatic hose, pneumatic hose fittings, and pneumatic components.

Custom manifold designer and manufacturing with a standard product line, and also a sophisticated source for custom hydraulic manifolds.

Industrial and mobile water/oil/air/oil heat exchangers, accessories, and pneumatic coolers.

A subsidiary of Norgren. Pneumatic directional control valves, fittings, manifolds, air nozzles, and custom products.

Radial piston hydraulic motors, gear boxes, and rotary manifolds.

## OAP Hydraulic Repair Division

Oil-Air Products Repair Division offers our mobile and industrial customers a cost-effective, quality solution to their service and repair needs. We will remanufacture all products to meet and exceed factory performance specifications and warranty our repairs for one year covering parts and workmanship.

Our team of experts is factory-trained technicians that can repair nearly all fluid power brands. We are also an authorized warranty and service center for Danfoss, Moog, Oilgear, and Parker-Denison.

Call 888.645.2477 or email [repairs@oilair.com](mailto:repairs@oilair.com) with any questions or to discuss your repair needs.
